Sunol was then enveloped in a huge red and
black blanket and led into the box-stall
which Maud S, occupied for so many years.

"I now hold the two best trotting records—
2.084 on the regulation track by Maud S,
and 2.0844 by Sunol on the kite-shaped
track," said Mr. Bonner, and I would nole
heither of them if it hadn't been for my
knowledge of horses and the care of their feet.

"I shall keep Sunol in my stable until
Spring, when I will turn her over to Mr. Marvin, who will then send her again to lower
the record. Of course, I do not expect she
will beat 2.0844 on a regulation track, but
sincerely believe that you will see her get as
low as 2.06 on the kite-shaped track."

Sunoi is a five-year-old bay filly, by the great Electioneer, out of Waxana, who was by Gen Benton. Her grandam was a mare called Waxy, sain to be by lexington. The dam of Waxy is unknown.

Senator Stanford, Sunoi's breeder, and others claim that Waxy was out or a daugnter of Gray Eagle, but John II. Wallace, of the Trotting Register, has almost conclusively proven that the Gray Eagle had no progeny in 1802, the year in which Waxy was foaled.

Sunol is a beautimated waxy was

geny in 1862, the year in which waxy was foaled.

Sunol is a beautiful animal, with no white in her coat. Her hindquariers are two and a half inches higher than her forequariers, which gives her a greyhound-like appearance, and her lines are perfect to a horseman's eye. Her action is easy and graceful. She was foaled at Senator Stanford's Palo Alto farm, in Santa Chara County, Cal., in April, 1886. Sunol was not sent for records as a yearing. Her first appearance in public was as a two-year-old at Les Angeles, Cal., Aug. 5, 1888, when she trotted the second heat of a race in 2.25. In october of the same year she beat the Widdhower's record of 2.21, by half a second, and a week later made her famous two-year-old's record of 2.18.

18. In her first race as a three-year-old she was defeated by Lillian Wilkes at Petalums, Cal., the latter's best heat tering trotted in 2.472. Suncl, a week later, defeated Lillian Wilkes three straight heats in 2.21, 2.244; and 2.20. Sept. 12, at Sacramente, Suncl was sent for a record, and trotted in 2.1036. Her next performance was at Fresno, Cal., when she trotted a salle in 2.134, beating Axtell's record of 2.14. Axtell, however, established a new record of 2.12, and this also Suncl smashed Nov. B. going the mile in 2.1046. This was the best on record for a three year-old.

Then senator Stanford received numerous inquiries as to her price. Senator Hearst telegraphed that he would give \$250,000 for her, and if that was not enough he would pay more, the was willing to pay more than any other man in the world. He was too late, for a month previous Sunci had been sold to Robert Bonner of this city for \$41,000. In her four-year-old form Sunol made many attempts to lower the record of Mand S. but falled. Her best mile was made in 2.1046 at Washington Park, Chicago, Aug. 23, 1890.

This year she went tame carry in the Spring, and did nothing until Oct. 12, when she trotted a mile against time on the kite-shaped track at stockton, Cal., in 2.10 flat. She was storted again oct. 20, and trotted her tamous mile 12 Octs, which beats Mand S. Jamous Osid, which beats Maud 8.'s famous
